

Web of Science Author Connect

Reach the right people

What if you could directly target the leading researchers?
With increased competition in the scholarly publishing industry, it's becoming more difficult to differentiate journal titles and conference meetings.

So now it's more imperative than ever that you reach the right people with your messages. You can communicate directly with the leading researchers using Web of Science Author Connect.

Current and Active

The Author Connect database only contains active researchers in each field and speciality in Web of Science - which is a painstakingly selected, actively curated database of the journals that scientists themselves have judged to be the most important and useful in their field.

Meet your needs

This means that you have access to over two million active researchers - constantly updated and curated - specifically targeted for your needs:

- Support new subscriptions
- Increase awareness and drive usage
- Grow submissions for your titles
- Encourage conference attendance
- Boost membership
- Find conference speakers and presenters

Music

“[Web of Science Author Connect] service effectively helps to extend the reading coverage of International Journal of Automation and Computing (IJAC). After using the service, the volume of downloading and reading has been significantly improved.”

- Pei-ying Chen, Managing Editor, International Journal of Automation and Computing
